Better For Your Employees

A Micro Market is an innovative, attractive alternative to traditional vending machines. It offers a large variety and healthier choices to your employees, and makes payment easier and more flexible. These benefits lead to more satisfied employees, and reduces the need for them to leave at lunch and break times to get the food and beverages they want.

Better For Your Company

Micro Markets are easy to set up and easy to operate. Tassi Vending can tailor a system to your needs and the space you have available. There are no up-front or on-going costs, and no more jammed coins!

Attract the Best People

According to a recent Harris poll, *57 percent of respondents said benefits and perks play a major role when deciding whether to pursue a particular job.*

In the U.S. there are more than 50,000 Micro Markets in operation. The numbers are increasing every year - shouldn't your business have one too?
